STATE OF OKLAHOMA

ATTORNEY GENERAL OPINION
2016-448A

Billy Stout, Board Secretary
State Board of Medical Licensure and
Supervision
101 N.E. 51st Street
Oklahoma City, Oklahoma 73105

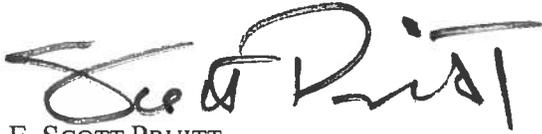

August 1, 2016

Dear Board Secretary Stout:

This office has received your request for a written Attorney General Opinion regarding agency action that the State Board of Medical Licensure and Supervision intends to take with respect to an application for licensure by prospective licensee 32429. The proposed action is to enter an agreement with the applicant whereby the application is approved with restrictions imposed on the licensee including: random hair follicle and body fluid testing; ingestion of only medications authorized by a treating physician who has been made aware of the agreement; an affirmative duty not to ingest prohibited substances including alcohol; Board access to applicant's practice and treatment-related records; notification of any criminal charges involving substance abuse, or any relapse, including inpatient rehabilitation; notification to potential employers, or other states, of the agreement; appearance before the Board upon request; and restriction of practice to a supervised residency training program. The applicant resigned from a residency in Washington, D.C. and surrendered a training license in 2015. A subsequent diagnosis indicated possible Post Traumatic Stress Disorder ("PTSD") and like symptoms.

The Oklahoma Allopathic Medical and Surgical Licensure and Supervision Act, 59 O.S.2011 & Supp.2015, §§ 480–518.1, provides "[n]o person shall be licensed to practice medicine . . . in [the] state except upon a finding by the Board that such person . . . has produced satisfactory evidence to the Board of the ability of the applicant to practice medicine and surgery with reasonable skill and safety," 59 O.S.2011, § 492.1(B). The Board may issue "conditional, restricted, or otherwise circumscribed licenses, or . . . licenses under terms of agreement . . . for the public health, safety, and welfare." 59 O.S.2011, § 493.3(D). An agreement entered with an applicant will be deemed "continuing in nature until set aside or otherwise terminated by the Board." OAC 435:10-4-11(b)(5). The restrictions on the applicant's license described above reasonably seek to ensure that the licensee does not provide compromised care because of psychiatric or other problems.

It is, therefore, the official opinion of the Attorney General that the State Board of Medical Licensure and Supervision has adequate support for the conclusion that this action advances the State of Oklahoma's policy to protect public health and ensure patient welfare.
