

OFFICE OF ATTORNEY GENERAL
STATE OF OKLAHOMA

ATTORNEY GENERAL OPINION
2016-485A

Kim Glazier, Executive Director
Oklahoma Board of Nursing
2915 N. Classen Blvd., Ste. 524
Oklahoma City, Oklahoma 73106

August 5, 2016

Dear Executive Director Glazier:

This office has received your request for a written Attorney General Opinion regarding agency action that the Oklahoma Board of Nursing intends to take pursuant to a consent agreement in Board case 3.048.17. The proposed action is to require the licensee to complete courses in nursing law, medication administration including controlled dangerous substance (“CDS”) medications, and nursing documentation. The licensee will also be fined \$500 and severely reprimanded. Failure to comply with the primary provisions of the order will result in a three month suspension of the license and additional fines. Throughout January of 2015, the licensee signed out CDS medications on behalf of two residents in a long-term care center but did not record administration or waste of the medications.

The Oklahoma Nursing Practice Act, 59 O.S.2011 & Supp.2015, §§ 567.1–567.20, authorizes the Board to impose discipline when a nurse “[f]ails to adequately care for patients or to conform to the minimum standards of acceptable nursing” in a way that “unnecessarily exposes a patient or other person to risk of harm,” is “guilty of unprofessional conduct,” is “guilty of any act that jeopardizes a patient’s life, health or safety,” or violates regulations or any state or federal statutes relevant to the practice of nursing, 59 O.S.Supp.2015, § 567.8(B)(3), (7), (8), (9). Unprofessional conduct includes failing to maintain custody of CDS medications. OAC 485:10-11-1(b)(3)(T). Conduct which jeopardizes a patient’s life, health, and safety includes a nurse’s “[f]ailure to utilize appropriate judgment in administering safe nursing practice.” OAC 485:10-11-1(b)(4)(D). The action seeks to enforce requirements that nurses properly account for CDS medications. The Board may reasonably believe that the action will deter future violations.

It is, therefore, the official opinion of the Attorney General that the Oklahoma Board of Nursing has adequate support for the conclusion that this action advances the State of Oklahoma’s policy to protect the public health, safety, and welfare by ensuring CDS medications are properly maintained and administered.

A handwritten signature in black ink, appearing to read "Scott Pruitt".

E. SCOTT PRUITT
ATTORNEY GENERAL OF OKLAHOMA
