STATE OF OKLAHOMA

ATTORNEY GENERAL OPINION
2017-822A

Kim Glazier, Executive Director
Oklahoma Board of Nursing
2915 N. Classen Blvd., Ste. 524
Oklahoma City, Oklahoma 73106

December 1, 2017

Dear Executive Director Glazier:

This office has received your request for a written Attorney General Opinion regarding action that the Oklahoma Board of Nursing intends to take pursuant to a consent agreement in case 6.013.18. Due to issues with Controlled Dangerous Substances, the licensee has requested to be referred to the Board's Peer Assistance Program ("PAP"). The Board proposes to refer the licensee to PAP and temporarily suspend the license. If the licensee is not accepted or defaults or is terminated from PAP, the license will be revoked for two years and a \$7,500 administrative penalty will be assessed. Prior to reinstatement, the licensee will be required to meet Board guidelines, and upon reinstatement, the license will be placed in temporary suspension pending readmission to PAP.

The Oklahoma Nursing Practice Act authorizes the Board to impose discipline when a nurse "fails to adequately care for patients or to conform to the minimum standards of acceptable nursing" in a way that "unnecessarily exposes a patient or other person to risk of harm," "is guilty of unprofessional conduct," has "[v]iolated a rule promulgated by the Board," or has violated state or federal law related to nursing 59 O.S.Supp.2017, § 567.8(B)(3), (7), (9). Unprofessional conduct includes "failure to maintain proper custody and control of controlled dangerous substances of the patient or agency," "diversion or attempts to divert drugs or controlled substances and jeopardizing a patient's life, health, and safety by a nurse's "failure to utilize appropriate judgment in administering safe nursing practice." OAC 485:10-11-1 (b)(3)(T), (U), (4)(D). The Board may reasonably believe that the proposed action is necessary to deter future violations.

It is, therefore, the official opinion of the Attorney General that the Oklahoma Board of Nursing has adequate support for the conclusion that this action advances the State's policy to protect public health, safety, and welfare by ensuring nurses meet minimum standards of professional conduct.
